About you

These questions help us understand which sectors of the community are providing feedback so we can improve our engagement approach. Your responses will not be made public with your submission. Only collated data will be reported to the Council.

Your thoughts on the Big Decisions

Read about the Big Decisions in the 2024-34 Long-Term Plan Consultation Document available on our website www.mstn.govt.nz or pick up a copy from the library or our Customer Service Centre at 161 Queen Street. Tick one response for each decision.

Big Decision 1: Town Hall, library and archive

Town Hall (Consultation Document pages 13-18)

- The Council's Preferred Option** – Demolish the Town Hall and Municipal Buildings and build a new Town Hall on the current Town Hall site, retain the Municipal Building façade, and expand Waiata House. Cost: \$42.6 million.
- Alternative Option 1** – Demolish the Town Hall and build a new Town Hall on the site; retain and refurbish the existing Municipal Building including façade; and retain Waiata House. Cost: \$49.9 million (noting high uncertainty).
- Alternative Option 2** – Demolish the Town Hall and Municipal Building and do not replace these buildings; retain Waiata House and the leased Queen Street office. Cost: \$3.57 million.

The Council's Preferred Option and Alternative Option 1 include provision and budget to retain the Municipal Building façade. The estimated cost to do this is \$1.97 million. Do you want to keep the façade?

- Yes – keep the façade No – do not keep the façade

Masterton District Library and Wairarapa Archive (Consultation Document pages 19-24)

- The Council's Preferred Option** – Upgrade and expand the Library and consider in future a further extension to include the Archive. Cost: \$10.75 million.
- Alternative Option 1** – Upgrade and expand the Library and include the Archive now. Cost: \$14.66 million.
- Alternative Option 2** – Complete essential Library repairs and maintenance only. Cost: \$2.3 million.

Big Decision 2: Town centre improvements (Consultation Document pages 25-28)

- The Council's Preferred Option** – Complete essential work to improve water and roading infrastructure in the town centre. There would be no other improvements to Queen Street. Cost: \$6.48 million
- Alternative Option** – Complete essential work to renew water and roading infrastructure in the town centre, and redevelop the town centre to improve the 'look and feel' of that space. Cost: \$14.12 million.

Big Decision 3: Council Funding (Consultation Document pages 29-31)

- The Council's Preferred Option** – Funding for community groups and organisations would become contestable. Applications for this funding would be considered annually.
- Alternative Option** – Maintain existing Council funding arrangements. (Note: there is currently a mix of funding that is allocated via the Long-Term Plan process and a smaller pool of annual contestable funding).

Big Decision 4: Changes to services (Consultation Document pages 32-37)

The Council is proposing five changes that will reduce costs for our community but will also have implications for delivery of services or projects. Tick which option you support for each change.

Service areas	The Council's Preferred Option	Alternative Option(s)
1: Wairarapa Economic Development Strategy	<input type="checkbox"/> Reduce funding by 20 per cent compared to 2023/24 (annual saving of \$20K)	<input checked="" type="checkbox"/> Maintain funding
2: Regional Walking and Cycling facilitation	<input type="checkbox"/> Cease funding for this (annual saving of \$35K)	<input checked="" type="checkbox"/> Maintain funding
3: Regional Positive Ageing facilitation	<input type="checkbox"/> Cease funding for this (annual saving of \$40.5K)	<input checked="" type="checkbox"/> Maintain funding
4: Welcoming Communities facilitation	<input type="checkbox"/> Seek further external funding beyond 2025 when current funding expires. If further funding cannot be secured, cease projects and activities (annual saving of \$55K from 2025/26)	<input checked="" type="checkbox"/> Provide Council funding of \$55K per year from 2025/26 when external funding expires.
5: Climate initiatives	<input checked="" type="checkbox"/> Increase Community-led Climate Initiatives Fund from \$50K to \$100K rather than funding Climate Activation facilitation beyond April 2026, when external funding ceases	<input type="checkbox"/> Increase funding for facilitation by \$92K from 2026/27, with no increase to Community-led Climate Initiatives Fund OR <input type="checkbox"/> Increase funding for facilitation by \$92K from 2026/27 and increase Community-led Climate Initiatives Fund by 50K to \$100K

Explore a different look and feel in future if it would cost less

Would you prefer the Council to invest in maintaining the lakes as they are now or explore a different look and feel in the future if it would cost less?

Q20

Please tell us what you value and enjoy most about these lakes now:

we don't visit as hate crowds of people and places with insufficient free parking, or areas that likely have too many criminal activities or people hanging around. note also I can't access that document when started this survey, need to access with link to open separate page at any stage of survey.

there needs to be a follow up email to queries and complaints etc sent to the council email address, I have sent some but not getting replies from relevant team. I don't use phone [REDACTED] so don't want them ringing me, I want the same method of communication I used, which was email. not just a message received but what action was or is to be taken.

Q29

we should be able to use email and website to report noise or other issues, not limited to phone calls, as too hard to hear and understand many over the phone. [REDACTED]

Q18

Comments

I think the proposed rates hikes are excessive and MDC needs to get back to basics. Rates have doubled in the last 10yrs. Many people cannot afford current rates. Young people looking to buy housing are put off by the cost of rates, it is cheaper to rent. We need to create an environment that is affordable and sustainable for people on low incomes, the elderly and young people to attract and retain them in Masterton.

I think that a cheaper option for the new Masterton Town Hall and an additional building to extend Waiata House needs to be investigated.

Keeping the Town Hall facade is costly and it isn't particularly ornate or historic. The original facade damaged in an earthquake was quite beautiful, the current facade is rather plain.

Instead I propose a Town Hall which is a large, modern shed like structure with lots of glass, rather like a big covered yard/woodshed. This would be striking and very relevant to our rural surrounds. There are many examples of buildings like this that can be viewed around the country.

This building would provide space for events, and smaller meetings. And have a slightly larger capacity than the Carterton Events Centre. We don't need to be building a lavish town hall as currently proposed that will get very little use.

Although, I like the idea of a new town hall and retaining the existing facade, I do not agree with either of the two rebuild options suggested currently. Both seem to try to put too much into a new development, propose an unnecessarily large events space, and try to incorporate too many elements eg a new council chamber. More importantly, both are prohibitively expensive.

If something more like the original Borman proposals, or the Carterton Events Centre or Martinborough Library complex could be built for a significantly lower price than the current option costings, I might support that.

But any proposal to spend \$42m plus (and costs would surely escalate beyond that, as they always do) in the current financial climate is shockingly inappropriate - particularly when the Council is struggling to deal with major infrastructure issues around water and sewerage.

Your thoughts on the Big Decisions

Read about the Big Decisions in the 2024-34 Long-Term Plan Consultation Document available on our website www.mstn.govt.nz or pick up a copy from the library or our Customer Service Centre at 161 Queen Street. Tick one response for each decision.

Big Decision 1: Town Hall, library and archive

Town Hall (Consultation Document pages 13-18)

- The Council's Preferred Option** – Demolish the Town Hall and Municipal Buildings and build a new Town Hall on the current Town Hall site, retain the Municipal Building façade, and expand Waiata House.
Cost: \$42.6 million.
- Alternative Option 1** – Demolish the Town Hall and build a new Town Hall on the site; retain and refurbish the existing Municipal Building including façade; and retain Waiata House.
Cost: \$49.9 million (noting high uncertainty).
- Alternative Option 2** – Demolish the Town Hall and Municipal Building and do not replace these buildings; retain Waiata House and the leased Queen Street office.
Cost: \$3.57 million.

The Council's Preferred Option and Alternative Option 1 include provision and budget to retain the Municipal Building façade. The estimated cost to do this is \$1.97 million. Do you want to keep the façade?

- Yes – keep the façade
- No – do not keep the façade

Masterton District Library and Wairarapa Archive (Consultation Document pages 19-24)

- The Council's Preferred Option** – Upgrade and expand the Library and consider in future a further extension to include the Archive.
Cost: \$10.75 million.
- Alternative Option 1** – Upgrade and expand the Library and include the Archive now.
Cost: \$14.66 million.
- Alternative Option 2** – Complete essential Library repairs and maintenance only.
Cost: \$2.3 million.

Big Decision 2: Town centre improvements (Consultation Document pages 25-28)

- The Council's Preferred Option** – Complete essential work to improve water and roading infrastructure in the town centre. There would be no other improvements to Queen Street.
Cost: \$6.48 million
- Alternative Option** – Complete essential work to renew water and roading infrastructure in the town centre, and redevelop the town centre to improve the 'look and feel' of that space.
Cost: \$14.12 million.

Big Decision 3: Council Funding (Consultation Document pages 29-31)

- The Council's Preferred Option** – Funding for community groups and organisations would become contestable. Applications for this funding would be considered annually.
- Alternative Option** – Maintain existing Council funding arrangements. (Note: there is currently a mix of funding that is allocated via the Long-Term Plan process and a smaller pool of annual contestable funding).

Big Decision 4: Changes to services (Consultation Document pages 32-37)

The Council is proposing five changes that will reduce costs for our community but will also have implications for delivery of services or projects. Tick which option you support for each change.

Service areas	The Council's Preferred Option	Alternative Option(s)
1: Wairarapa Economic Development Strategy	<input checked="" type="checkbox"/> Reduce funding by 20 per cent compared to 2023/24 (annual saving of \$20K)	<input type="checkbox"/> Maintain funding
2: Regional Walking and Cycling facilitation	<input checked="" type="checkbox"/> Cease funding for this (annual saving of \$35K)	<input type="checkbox"/> Maintain funding
3: Regional Positive Ageing facilitation	<input type="checkbox"/> Cease funding for this (annual saving of \$40.5K)	<input checked="" type="checkbox"/> Maintain funding
4: Welcoming Communities facilitation	<input checked="" type="checkbox"/> Seek further external funding beyond 2025 when current funding expires. If further funding cannot be secured, cease projects and activities (annual saving of \$55K from 2025/26)	<input type="checkbox"/> Provide Council funding of \$55K per year from 2025/26 when external funding expires.
5: Climate initiatives	<input checked="" type="checkbox"/> Increase Community-led Climate Initiatives Fund from \$50K to \$100K rather than funding Climate Activation facilitation beyond April 2026, when external funding ceases	<input type="checkbox"/> Increase funding for facilitation by \$92K from 2026/27, with no increase to Community-led Climate Initiatives Fund OR <input type="checkbox"/> Increase funding for facilitation by \$92K from 2026/27 and increase Community-led Climate Initiatives Fund by 50K to \$100K

Fees and charges (See proposed [fees and charges](#) on our website)

Do you support our proposed fees and charges for 2024/25?

Yes

No

Don't know

*Without considering each individual item it is my submission that (a) Fees associated with 'new' buildings should double
(b) Fees associated with improving existing housing stock should halve.
Continued expansion of housing into productive agricultural land is not justified when high quality employment does not exist for people raised in Masterton. Incentives to improve the local housing stock/infrastructure should be considered.*

(attach separate pages if needed)

My main submission is that many Masterton ratepayers (and renters) are experiencing difficult times. This is not the time for 'vanity' projects.

Focus needs to be on core infrastructure. Council needs to ask itself will items of expenditure improve health and safety of residents and visitors (eg pipes, drains, lighting roads).

Money residents dont spend on rates will be spent in shops and improve the local economy.

Our two companies strongly support the continued investment and support of Destination Wairarapa ON THE CURRENT BASIS. The suggestion of putting the functions carried on by Destination Wairarapa out for contestable funding is short sighted and would undermine the short, medium and long term financial viability of the organisation.

Comments

You are all out of control & your ideas are one sided . When reading these multi-choice, it doesn't even give the option to simply Opt out completely to the projects you propose, by saying NO-- its nuts!
 You need to simply STOP SPENDING!! Stop these projects & learn a great skill , learn to save .
 If you require help in this area on how to save money, contact me, I am happy to help.
 You are increasing rates falsely by 40% over the next 5 years. This is unacceptable with mortgages increasing , which will then be placed onto the renter, as well as the cost of living increasing & you honestly expect people to pay for your unexceptable sending activates , I'm sorry
 but I don't think so councilors
 Climate change is a lie, A total lie of untruths but you have a climate change multi-choice, where I can not even opt out of this madness & say NO to this spending.
 You are complete fools on every level if you believe in climate change or electric cars etc. This is an WEF agenda of controlling the people , it has nothing to do with climate at all. Do your homework Councilors

Yes STOP SPENDING!!.

You all really need to take a very good look at who you are as people, you are the cause of many families & people problems financially, starting with un-necessary rate increases which have massive knock on effects across the entire community. This is NOT your money to spend .

Always have a customer service via the phone, its vital for society to have human contact

Q29

Is there anything else you would like to say as part of your feedback on the 2024-34 Long Term Plan? OR click Done below to complete your submission

Yes stop spending money.

There was no option to do nothing for this question

16. Service Area 5: Climate initiatives

My option would be "No do nothing"

IE: DO NOTHING ITS A HOAX

Climate change is a hoax , propagated by the Globalists & the WEF. Truly you Councilors cant be this stupid to not know this by now?

Its about control of our food, water, transportation , even the air we breath , that is also sprayed , cloud seeding, chem trails.

Please don't be foiled by this PS & be the Masterful Council of NZ , & say no to promoting electric cars & stand up for the people & the next generations. People know the lie, we see it & start being the voice for everyone who are still lost & say no to Billy Gates & the monsters that walk along side him.

As long as you keep debt limits below the 175% you should be progressing what you can to ensure attraction of the district for development and to new ratepayers. this will enable more economic prosperity and further distribution of the rating revenue.

Unlike Carterton we have facilities eg Cophorne, which also has accommodations, Rathkeale Auditorium, Genesis Recreation Centre, my preference is putting money into making our lives easier.
Council Office in Queen st attracts alot of foot traffic thus helping small businesses to stay afloat.

Invest in maintaining the lakes as they are now

Would you prefer the Council to invest in maintaining the lakes as they are now or explore a different look and feel in the future if it would cost less?

Q20

Please tell us what you value and enjoy most about these lakes now:

He key lake is an asset to the "look and "feel" if the community so kai tian what we already have.

Q21

When you need information about Council services, events or activities, what channel do you use most often?

Other - please specify:

None. Facebook community lets us know. Council website is clunky and difficult to find. Old fashioned as well.

Q22

Phone the Council

When you need to report a problem with a Council facility or service, what channel do you use most often?

Q23

Pay via the Council's website

When you need to pay your rates or pay for another Council service (e.g. dog registration, consent fees, etc), what channel do you use most often?

Q24

Please stop the relentless banter that we "need" a town hall when there are various other options for "dance shows", concerts and meetings. Perhaps invest in the Wairarapa College auditorium to make it more suitable for larger shows or events. It is an unnecessary expense when Carterton has an underused events centre and we have options such as Wairarapa College, Equippers church hall, smaller school halls, the library portacoms for smaller meetings... the list could go on. Even the Bruce Mason Theatre in Auckland in the north shore is underused and their population is huge, masterton population is so small in comparison to carry this burden of debt.

Weve have survived without a Town Hall All these years let's put our money into making lives easier for us all at this time. Also keeping council office in main Centre is a good thing for the town as we get alot more foot traffic for business's which we need at this time.

With the cost of living increase and associated high inflation, the Council needs to trim any unnecessary spending and not borrow more or increase the rates burden on ratepayers.

Hi there!

I just wanted to make a submission to ask Masterton council to please consider including and continuing to fund fab Lab when you are expanding the library!

It is such an incredible space of learning and super beneficial to the wider community.

With a tech focused world and continuous growth in that sector it is important to ensure everyone has access to materials and knowledge that will help them create cool things and grow minds young and old alike!

Continuing to fund this service could mean the next big inventor or piece of tech design was created due to the opportunities Fab Lab had to offer them! How cool would it be to say that Masterton city council funded a project that allowed a creator to create the next big technological advancement ?!

I appreciate you taking the time to read my email and hope to see Fab Lab funded and a part of the Masterson community for many years to come.

Regards,
Micheale Vermunt

Q17

Don't know

Do you support our proposed fees and charges for 2024/25?

Q18

Comments

All the building fees are excessive! No wonder people do work without letting you know. Building costs so much already, the fees just put people off. Absolutely ridiculous for transportable dwellings with the current housing shortage. Inspection fees also astronomical. Reserves contribution for rural properties is a rip off. We do our own water, sewerage and rubbish. The only contribution the council makes for us is roads which are charged separately. Cemetery charges are excessive. Rental charges for the library have really annoyed me, I borrow a lot of books and have stopped borrowing hot picks due to the increased charges as I only take a week to read a book; it may seem petty but it should be recalculated to \$1 per week (which I would be happy to pay) - now I just wait for the charges to come off then borrow so the library gets no fees! P821: or any other white line crossed is stupid given the insufficient width of parking spaces, especially if someone has parked near to one's car on the drivers side. Sometimes you can't help being on the line. Green waste should be free to dump, council is making money anyway out of the compost made from it. A BIG PROBLEM is people having to dump items that should be recycled, as is done in other areas of the country. We should employ someone to run a recycle depot as too much is going to landfill. I spoke to Lynn Patterson about this when she was mayor and she promised it was coming ... WHEN??????? E waste should be recycled at no charge, why do you think we see it all dumped on our rural roads?

Q20

Please tell us what you value and enjoy most about these lakes now:

I walk around Henley lake most weeks and take visitors there. A big draw card for visitors to Masterton is Queen Elizabeth park and lake, this should be kept at all costs, the improvements done over the last couple of years have been great. DO NOT GET RID OF THEM OR FILL THEM IN,

Q21

When you need information about Council services, events or activities, what channel do you use most often?

Other - please specify:

A lot of people do not use computers and prefer face to face encounters

Q22

Phone the Council

When you need to report a problem with a Council facility or service, what channel do you use most often?

Q23 **Pay by automatic payment or direct debit**

When you need to pay your rates or pay for another Council service (e.g. dog registration, consent fees, etc), what channel do you use most often?

Q24 **Never**

How often, on average, have you accessed information from the Council's website or contacted the Queen Street Customer Service Centre in the past 12 months?

Q25 **Monthly**

How often, on average, have you visited the Queen Street Customer Service Centre in the past 12 months?

Q26 **No**

Have you used the Council's after hours service in the past 12 months?

Q27 **Less**

Would you prefer to do more or less Council business online?

Q28
Do you have any other comments on how the Council delivers customer services now? Or suggestions for customer services that you would like the Council to consider in future?

Some council staff and contractors are openly opposed coming to the Wairarapa when in discussion with them

Savings could be made by reducing the extras that council staff receive, including the extra week leave per year. The council is an attractive employer in the town (increasingly so in this economic environment), it should not need to offer extra incentives to get employees.

I would like to congratulate MDC Decision makers on the accessible well set out clear and concise consultation booklet and on the inclusive way they have carried out the consultation in the community - Thank you.

The Town Hall decision is not easy, rates rise a challenge and demolition was on the cards for my big tick - however common sense for a community hub to be built for the future won out in the end - I trust there will be a very adequate stage and dressing room areas for visitors -and therefore we will be able to welcome NZSO and Royal NZ Ballet to name just two big attractions, to our town.

Still waiting on a dog poo bin near the water fountain, next to the Manuka Reserve. This is a very popular dog walking area. It would be sensible to move the bin from Manuka/Tankersley corner up the road. In the meantime I monitor the bin that is in place. An unauthorised community service!!

About you

These questions help us understand which sectors of the community are providing feedback so we can improve our engagement approach. Your responses will not be made public with your submission. Only collated data will be reported to the Council.

What is your age range?

What is your ethnicity? (you may tick multiple boxes)

What is your gender?

Do you live with impairments/long-term health conditions or do you identify as tāngata whaikaha/disabled?

Your thoughts on the Big Decisions

Read about the Big Decisions in the 2024-34 Long-Term Plan Consultation Document available on our website www.mstn.govt.nz or pick up a copy from the library or our Customer Service Centre at 161 Queen Street. Tick one response for each decision.

Big Decision 1: Town Hall, library and archive

Town Hall (Consultation Document pages 13-18)

- The Council's Preferred Option** – Demolish the Town Hall and Municipal Buildings and build a new Town Hall on the current Town Hall site, retain the Municipal Building façade, and expand Waiata House.
Cost: \$42.6 million.
- Alternative Option 1** – Demolish the Town Hall and build a new Town Hall on the site; retain and refurbish the existing Municipal Building including façade; and retain Waiata House.
Cost: \$49.9 million (noting high uncertainty).
- Alternative Option 2** – Demolish the Town Hall and Municipal Building and do not replace these buildings; retain Waiata House and the leased Queen Street office.
Cost: \$3.57 million.

The Council's Preferred Option and Alternative Option 1 include provision and budget to retain the Municipal Building façade. The estimated cost to do this is \$1.97 million. Do you want to keep the façade?

- Yes – keep the façade No – do not keep the façade

Masterton District Library and Wairarapa Archive (Consultation Document pages 19-24)

- The Council's Preferred Option** – Upgrade and expand the Library and consider in future a further extension to include the Archive.
Cost: \$10.75 million.
- Alternative Option 1** – Upgrade and expand the Library and include the Archive now.
Cost: \$14.66 million.
- Alternative Option 2** – Complete essential Library repairs and maintenance only.
Cost: \$2.3 million.

Big Decision 2: Town centre improvements (Consultation Document pages 25-28)

- The Council's Preferred Option** – Complete essential work to improve water and roading infrastructure in the town centre. There would be no other improvements to Queen Street.
Cost: \$6.48 million
- Alternative Option** – Complete essential work to renew water and roading infrastructure in the town centre, and redevelop the town centre to improve the 'look and feel' of that space.
Cost: \$14.12 million.

Big Decision 3: Council Funding (Consultation Document pages 29-31)

- The Council's Preferred Option** – Funding for community groups and organisations would become contestable. Applications for this funding would be considered annually.
- Alternative Option** – Maintain existing Council funding arrangements. (Note: there is currently a mix of funding that is allocated via the Long-Term Plan process and a smaller pool of annual contestable funding).

Big Decision 4: Changes to services (Consultation Document pages 32-37)

The Council is proposing five changes that will reduce costs for our community but will also have implications for delivery of services or projects. Tick which option you support for each change.

Service areas	The Council's Preferred Option	Alternative Option(s)
1: Wairarapa Economic Development Strategy	<input type="checkbox"/> Reduce funding by 20 per cent compared to 2023/24 (annual saving of \$20K)	<input type="checkbox"/> Maintain funding
2: Regional Walking and Cycling facilitation	<input type="checkbox"/> Cease funding for this (annual saving of \$35K)	<input checked="" type="checkbox"/> Maintain funding
3: Regional Positive Ageing facilitation	<input type="checkbox"/> Cease funding for this (annual saving of \$40.5K)	<input checked="" type="checkbox"/> Maintain funding
4: Welcoming Communities facilitation	<input type="checkbox"/> Seek further external funding beyond 2025 when current funding expires. If further funding cannot be secured, cease projects and activities (annual saving of \$55K from 2025/26)	<input checked="" type="checkbox"/> Provide Council funding of \$55K per year from 2025/26 when external funding expires.
5: Climate initiatives	<input type="checkbox"/> Increase Community-led Climate Initiatives Fund from \$50K to \$100K rather than funding Climate Activation facilitation beyond April 2026, when external funding ceases	<input type="checkbox"/> Increase funding for facilitation by \$92K from 2026/27, with no increase to Community-led Climate Initiatives Fund OR <input checked="" type="checkbox"/> Increase funding for facilitation by \$92K from 2026/27 and increase Community-led Climate Initiatives Fund by 50K to \$100K

Is there anything else you would like to say as part of your feedback on the 2024-34 Long Term Plan?
(attach separate pages if needed)

1 May 2024

Submission to the Masterton District Council, "MDC", Long-Term Plan, "LTP" from Wairarapa Bush Rugby Union, "WBURU".

Firstly, we would like to thank the Mayor, Councillors and MDC staff for their time with our workshop and presentation in 2023.

Attached is the presentation tabled at the 2023 MDC workshop. The fundamentals of the presentation remain the same.

As there is some time to work through the replacement of the turf in 2027, we submit that from 2026/27 sufficient capital is provided in the LTP for the upgrade of the turf, changing rooms and grandstand. The project will also need to include the completion of any earthquake strengthening and our 2023 presentation did not include any provision for this work.

WBURU is willing to work closely with MDC over the next two-years to project manage as we did in stage one (\$2,259M), and wish to retain the importance of a multi-sports facility once all parties have agreed on the design costs, investment, and a new term of lease, (the proposal is for a term of 33-years). We advised both the Marist Rugby and Sports Association, and the Marist Rugby Club would need to be consulted to any new lease agreements.

We have summarised some key talking points from our original presentation:

1. If the turf returns to grass, the ability to be multi-purpose would be diminished.
2. There is new technology regarding artificial turfs. We have attached communications from the newly approved installation of an artificial turf in the Waikato.
3. The grandstand was designed for men and needs to be redesigned to cater for women. No estimate of the upgrade has been sourced however, once the cost of the earthquake strengthening is obtained, we should be able to determine what can and cannot be done.
4. There is sufficient available land to improve carparking and accessibility for the public, surrounding businesses, and other sports clubs in proximity.
5. For the first 4 months of 2024, the turf has been able to host clubs who have been unable to utilise their own grounds due to the adverse weather conditions. A summary of use from January to April 2024 is attached.
6. WBURU has invested approximately \$70,000 in the park to restore the lights, turf, and repay the WMSST debt since WMSST was wound up in December 2022.

We understand there is a provision in the LTP for a sports and facility review to commence sometime during 2024/25. WBURU will support and contribute into the review.

We thank you for your time and look forward to engaging with the key members of the Masterton District Council over the next 12-18 months.

Hamilton Marist

Hamilton Marist project was modelled over a 30-year period for Artificial vs Sand Carpet vs Soil.

A Hybrid field was discounted as a Hybrid is very specialised and more expensive to build and maintain.

Over a 30-year window the artificial turf per hour of play was cheaper than those used for a soil and sand carpet. Lights for the ground was a key part of the decision-making process.

Reservations on a cork based artificial turf was put to bed once a key funder and Blair Currie from Hamilton Marist visited 6 sites in Sydney where there were multiple grounds with the newer technology. Concerns on player welfare and burns were put to bed after talking to senior players from Randwick/ Eastern Suburb Rugby Club and the Sydney Swans who all train and play on this surface.

Water usage on sand carpet was a big turn off. Waikato stadium currently uses 1mil litres of water per 6-month dry season to keep it alive.

The cost for the Hamilton Marist project was \$2.05mil including Resource and Building consent fees.

Project costs

Turf	\$1,260,000
Lights	\$236,000
Earthworks	\$300,000
Fees, surrounds and miscellaneous	\$254,000
Total	\$2,050,000

If you live in Hamilton or the wider Waikato Region, you may have wondered what is going on at Hamilton Marist, at Marist Park in Hamilton. They are developing the regions first artificial surface suitable for rugby, football, and multiple other sporting codes.

Demand for playing fields has been increasing across the region as the result of many factors. These include general participation growth, season extensions, and increased variety in delivery approaches and sports using the same field platforms. In response, local authorities, regional sporting organisations, local clubs and schools are recognising the needs for enhanced sports field quantities and qualities to ensure that the regional field supply can continue to match regional demand. No longer is the sporting community prepared to put up with sports fields that are closed for weeks in a row - instead, they are asking for a sports field surfaces that can be played upon in any weather and provides a quality experience.

A recent sub-regional study undertaken by consultancy group Visitor Solutions across Hamilton and Waipa highlighted parks across several location being susceptible to weather related events largely due to underlying soil conditions, placing significant stress on the soil field network making it extremely difficult to establish and maintain good quality surfaces without significant investment.

Artificial turf is an innovative solution to meet the needs of our community and overcome challenges related to surface quality. Well done Hamilton Marist and supporting funders in progressing a solution to overcoming participation barriers.

Dear Masterton District Council,

My name is Amber Arkell, and I serve as the Centre Manager for the Wairarapa Cancer Society. I am writing to you to express our views and recommendations regarding Masterton District Council's Long-Term Plan.

With skin cancer being one of the most common cancers in New Zealand, affecting around 90,000 individuals annually, sun protection is of paramount importance. Encouraging individuals to 'slip, slop, slap and wrap' is vital, with 'slipping' into shade being one of the most effective forms of sun protection. Quality shade can reduce an individual's UV exposure by more than 75%. However, accessibility to shade remains a challenge in many outdoor spaces, hindering the ability to seek protection from harmful UV rays.

Therefore, we strongly urge Masterton District Council to prioritise the integration of shade provision into planning guides for the redesign and refurbishment of existing outdoor spaces, including recreational areas, residential zones, and other public domains.

Two specific areas where this integration could be particularly beneficial are as follows:

- Mandatory tree planting and the incorporation of green spaces in new subdivisions: This approach not only plays a crucial role in mitigating and managing stormwater runoff but also provides much-needed protection from excessive UV exposure.
- Enhancement of shade provision in outdoor recreational areas: Focus should be placed on areas with high patronage, especially those frequented by children and young people, to promote community and whānau wellbeing.

Utilising built shade structures, shade sails, and strategic tree planting can create attractive and safe environments for recreation while addressing the challenges posed by climate change. These measures not only mitigate UV damage and heat stress but also foster a sense of belonging and safety within the community, contributing to overall social and environmental sustainability.

Moreover, Masterton's investment in town centre improvements further underscores the importance of considering shade in these plantings. Alongside adopting a Smokefree/Vape free policy and implementing the Local Alcohol Plan (with the other councils), this would provide significant cancer protections well into the future and at relatively low-cost, long-lasting improvements to the healthfulness of the central city.

Incorporating these recommendations into the Long-Term Plan demonstrates the council's commitment to the health and well-being of its residents and establishes Masterton as a leader in promoting cancer prevention and healthy living.

Thank you for considering our input. We would welcome the opportunity to discuss these recommendations further or provide any additional information that may be helpful to the council.

Yours sincerely,
Amber Arkell

Wairarapa Dragon Boat Club. Submission 2024.

We oppose any plans to reduce the lake area to a wetland.

Previous submissions by our Club have supported the retaining of the lake for recreational sports such as dragon boating, waka ama, model boats and public use with kayaks/canoes etc.

Previous submissions have included face to face discussions with MDC staff on various worldwide solutions that have been proven to reduce algae bloom.

These issues were addressed face to face at a full Council meeting chaired by Lyn Patterson.

Dragon boating started when the lake was formed and the alterations to one island enabled us to hold regatta events attracting teams from Wellington, Taranaki and Hawkes Bay. We have made additions to the boat shed, at no cost to the council, and have invested in dragon boats and equipment. There is no alternative lake for us to use in the Wairarapa.

The health benefits are well documented, and we cater for male and female from the age of 12 to 76 years of age.

The lake is a community asset set up by people with a vision.

The lake is an important community resource that needs to be nurtured and protected for current and future recreational use. This summer is a good example of what can be achieved/maintained in times of water scarcity, as we had a very dry summer and the Lake has really been in the best condition we have seen for a long time.

Wetlands are important and are already in place.

We recognise that Greater Wellington has a responsibility to protect our environment. The Lake is our environment, and we ask Greater Wellington to listen to public opinion as expressed in previous submissions i.e. to retain the lake.

We invite Greater Wellington to meet with us at the lake and this invitation still stands.

Submission

Kia ora Masterton District Council

Nuku Ora, on behalf of the following Regional Sports Organisations made up of Wairarapa Cricket, Wairarapa Bush Rugby Union, Hockey Wairarapa, Wairarapa Secondary Schools Sports, Wairarapa Tennis, Capital Football & Netball Wairarapa would like to make a joint submission toward Masterton District Councils 2024-34 Long Term Plan.

Being physically active contributes beneficially to people's quality of life and overall wellbeing. With the support of council via resources, facilities or grants, sports codes contribute to several Masterton District Council Community outcomes.

We would like to acknowledge the council's current provision to support sport, active recreation and play provision within the district for our community.

The representative groups would also like to acknowledge the importance and value of sport, fitness, recreation and play opportunities with and for our community.

As a collective this group represents over 10,000 participants via organised sport.

With regards to specific impact to the sports sector in the MDC LTP the codes would like to make the following points;

- Changes to Council Fundings. We ask that consideration be given to the current grant and funding environment for sport, particularly. There exists a much greater competitive environment as most funding pools are decreasing or are subject to criteria changes while demand for these funds is increasing. This situation will make receiving grants harder in the future and will shift costs increasingly to users. Already we are seeing people having to make choices about their participation in activities because of the cost-of-living crisis, depriving many of the opportunity to experience the wide range of benefits that come from that participation.
- The RSO collective would welcome the opportunity to be part of the Sports and Facilities Strategy work. Access to quality facilities (including the associated amenities such as toilets and lighting) is a critical aspect of managing local competitions and providing the community with opportunities to participate in sport. Sport can also be a vehicle for delivering broad community outcomes beyond just the sporting ones and a deliberate strategy to achieve this would have many benefits for all involved.

Once again, thank you for the opportunity to submit.

Q28

Do you have any other comments on how the Council delivers customer services now? Or suggestions for customer services that you would like the Council to consider in future?

Its important to balance the needs of different community members. Its good to have the options for a lot more online services but we need to keep face to face deliver of services for those who prefer in person.

Is there anything else you would like to say as part of your feedback on the 2024-34 Long Term Plan? OR click Done below to complete your submission

It is difficult for community organisations to plan out their activities when they are constantly worrying about whether they will be successful in their funding applications. Having to do this on an annual basis will restrict the ways these organisations can operate. While the equity argument is a fair point but that equity shouldnt mean a negative impact for those currently receiving funds for the longer period. Surely other organisations can seek funds through non contestable processes as well. It will not cost any more for the council to keep the current approach and it is in fact more costly due to the administrative burden on council staff. The future funding environment is already precarious for charities and community organisations due to the change in government priorities, the council should not be adding to this burden - particularly when its not even a matter of covering rates.

Your thoughts on the Big Decisions

Read about the Big Decisions in the 2024-34 Long-Term Plan Consultation Document available on our website www.mstn.govt.nz or pick up a copy from the library or our Customer Service Centre at 161 Queen Street. Tick one response for each decision.

Big Decision 1: Town Hall, library and archive

Town Hall (Consultation Document pages 13-18)

- The Council's Preferred Option** – Demolish the Town Hall and Municipal Buildings and build a new Town Hall on the current Town Hall site, retain the Municipal Building façade, and expand Waiata House.
Cost: \$42.6 million.
- Alternative Option 1** – Demolish the Town Hall and build a new Town Hall on the site; retain and refurbish the existing Municipal Building including façade; and retain Waiata House.
Cost: \$49.9 million (noting high uncertainty).
- Alternative Option 2** – Demolish the Town Hall and Municipal Building and do not replace these buildings; retain Waiata House and the leased Queen Street office.
Cost: \$3.57 million.

The Council's Preferred Option and Alternative Option 1 include provision and budget to retain the Municipal Building façade. The estimated cost to do this is \$1.97 million. Do you want to keep the façade?

- Yes – keep the façade No – do not keep the façade

Masterton District Library and Wairarapa Archive (Consultation Document pages 19-24)

- The Council's Preferred Option** – Upgrade and expand the Library and consider in future a further extension to include the Archive.
Cost: \$10.75 million.
- Alternative Option 1** – Upgrade and expand the Library and include the Archive now.
Cost: \$14.66 million.
- Alternative Option 2** – Complete essential Library repairs and maintenance only.
Cost: \$2.3 million.

Big Decision 2: Town centre improvements (Consultation Document pages 25-28)

- The Council's Preferred Option** – Complete essential work to improve water and roading infrastructure in the town centre. There would be no other improvements to Queen Street.
Cost: \$6.48 million
- Alternative Option** – Complete essential work to renew water and roading infrastructure in the town centre, and redevelop the town centre to improve the 'look and feel' of that space.
Cost: \$14.12 million.

Big Decision 3: Council Funding (Consultation Document pages 29-31)

- The Council's Preferred Option** – Funding for community groups and organisations would become contestable. Applications for this funding would be considered annually.
- Alternative Option** – Maintain existing Council funding arrangements. (Note: there is currently a mix of funding that is allocated via the Long-Term Plan process and a smaller pool of annual contestable funding).

Big Decision 4: Changes to services (Consultation Document pages 32-37)

The Council is proposing five changes that will reduce costs for our community but will also have implications for delivery of services or projects. Tick which option you support for each change.

Service areas	The Council's Preferred Option	Alternative Option(s)
1: Wairarapa Economic Development Strategy	<input type="checkbox"/> Reduce funding by 20 per cent compared to 2023/24 (annual saving of \$20K)	<input type="checkbox"/> Maintain funding
2: Regional Walking and Cycling facilitation	<input checked="" type="checkbox"/> Cease funding for this (annual saving of \$35K)	<input type="checkbox"/> Maintain funding
3: Regional Positive Ageing facilitation	<input type="checkbox"/> Cease funding for this (annual saving of \$40.5K)	<input type="checkbox"/> Maintain funding
4: Welcoming Communities facilitation	<input type="checkbox"/> Seek further external funding beyond 2025 when current funding expires. If further funding cannot be secured, cease projects and activities (annual saving of \$55K from 2025/26)	<input type="checkbox"/> Provide Council funding of \$55K per year from 2025/26 when external funding expires.
5: Climate initiatives	<input type="checkbox"/> Increase Community-led Climate Initiatives Fund from \$50K to \$100K rather than funding Climate Activation facilitation beyond April 2026, when external funding ceases	<input type="checkbox"/> Increase funding for facilitation by \$92K from 2026/27, with no increase to Community-led Climate Initiatives Fund OR <input type="checkbox"/> Increase funding for facilitation by \$92K from 2026/27 and increase Community-led Climate Initiatives Fund by 50K to \$100K

APRIL 23 2024.

The Officers in charge
Masteron District Council
Masteron,

Dear Sir, Please find enclosed
my preferred options for the Town Hall and
library, as indicated by pink ticks.
Yours faithfully,
A H Wall.

Three options for...

The Town Hall

Three options are proposed for the Town Hall building, found to be earthquake-prone in 2016:

The Council's Preferred Option – Demolish the Town Hall and Municipal Buildings and build a new Town Hall on the current Town Hall site, retain the Municipal Building facade, and expand Waitata House. Cost: \$42.6m.

Alternative Option 1 – Demolish the Town Hall and build a new Town Hall on the site; retain and refurbish the existing Municipal Building including facade; and retain Waitata House. Cost: \$49.9m (noting high risk and uncertainty around costs and feasibility).

Alternative Option 2 – Demolish the Town Hall and Municipal Building and do not replace these buildings; retain Waitata House and the leased Queen Street office. Cost: \$3.5m.

The Council's Preferred Option and Alternative Option 1 include provision and budget to retain the Municipal Building facade. The estimated cost to do this is \$1.97m.

The library and archive

The Masterton District Library building is currently no longer fit for purpose, and also has a range of maintenance issues that need to be addressed, including water damage, mould, and a leaking roof.

The Council's Preferred Option – Upgrade and expand the Library and consider in future a further extension to include the Archive. Cost: \$10.75m

Alternative Option 1 – Upgrade and expand the Library and include the Archive now. Cost: \$14.66m

Alternative Option 2 – Complete essential Library repairs and maintenance only. Cost: \$2.3m

Town Hall (Consultation Document pages 13-18)

Alternative Option 2 – Demolish the Town Hall and Municipal Building and do not replace these buildings; retain Waiata House and the leased Queen Street office. Cost: \$3.57 million.

Q8 **No – do not keep the façade**

The Council's Preferred Option includes provision and budget to retain the Municipal Building façade. The estimated cost to do this is \$1.97 million. Do you want to keep the façade?

Q9 **The Council's Preferred Option – Upgrade and expand the Library and consider in future a further extension to include the Archive. Cost: \$10.75 million.**

Masterton District Library and Wairarapa Archive (Consultation Document pages 19-24)

Q10 **The Council's Preferred Option – Complete essential work to improve water and roading infrastructure in the town centre. There would be no other improvements to Queen Street. Cost: \$6.48 million.**

Town centre improvements (Consultation Document pages 25-28)

Q11 **The Council's Preferred Option – Funding for community groups and organisations would become contestable. Applications for this funding would be considered annually.**

Council Funding (Consultation Document pages 29-31)

Invest in maintaining the lakes as they are now

Would you prefer the Council to invest in maintaining the lakes as they are now or explore a different look and feel in the future if it would cost less?

Q20

Please tell us what you value and enjoy most about these lakes now:

They are the jewel in Masterton's crown and should be maintained regardless. Henley Lake is an essential and valuable community asset for various activities especially encouraging outdoors exercise! A close relationship between MDC and Henley Trust must exist to support ongoing maintenance etc and to look after this wonderful area.

I have not completed Big Decision 1 as there are equally feasible alternatives as given below.

i) Demolish the Town Hall, Municipal Building and facade. The LTP does not include a business case nor a cost/benefit analysis justifying a Town Hall rebuild. Launching into such a project in today's economic climate is to repeat the saga of the Wellington Town Hall, the Christ Church Cathedral, to name but two examples.

ii) Expand Waiata House. It is vital for an organisation to have its functionaries under one roof.

iii) upgrade and expand the library.

By NOT proceeding with the white elephant of a Town Hall all other projects (Waiata House and library expansion) can be fully completed.

I fully endorse David Borman's concepts and also the commitment of Bob Francis to support a significant external fundraising campaign over the next 18 months. An excellent example would be Wellington Free Ambulance's efforts.

Your thoughts on the Big Decisions

Read about the Big Decisions in the 2024-34 Long-Term Plan Consultation Document available on our website www.mstn.govt.nz or pick up a copy from the library or our Customer Service Centre at 161 Queen Street. Tick one response for each decision.

Big Decision 1: Town Hall, library and archive

Town Hall (Consultation Document pages 13-18)

- The Council's Preferred Option** – Demolish the Town Hall and Municipal Buildings and build a new Town Hall on the current Town Hall site, retain the Municipal Building façade, and expand Waiata House. Cost: \$42.6 million.
- Alternative Option 1** – Demolish the Town Hall and build a new Town Hall on the site; retain and refurbish the existing Municipal Building including façade; and retain Waiata House. Cost: \$49.9 million (noting high uncertainty).
- Alternative Option 2** – Demolish the Town Hall and Municipal Building and do not replace these buildings; retain Waiata House and the leased Queen Street office. *Enlarge Waiata House to house council staff together here so as not to waste money renting/leasing the Queen St. office. Use remaining land for council parking*
Cost: \$3.57 million.

The Council's Preferred Option and Alternative Option 1 include provision and budget to retain the Municipal Building façade. The estimated cost to do this is \$1.97 million. Do you want to keep the façade?

- Yes – keep the façade
- No – do not keep the façade

Masterton District Library and Wairarapa Archive (Consultation Document pages 19-24)

- The Council's Preferred Option** – Upgrade and expand the Library and consider in future a further extension to include the Archive. Cost: \$10.75 million.
- Alternative Option 1** – Upgrade and expand the Library and include the Archive now. Cost: \$14.66 million.
- Alternative Option 2** – Complete essential Library repairs and maintenance only. Cost: \$2.3 million.

Big Decision 2: Town centre improvements (Consultation Document pages 25-28)

- The Council's Preferred Option** – Complete essential work to improve water and roading infrastructure in the town centre. There would be no other improvements to Queen Street. Cost: \$6.48 million. *Please upgrade footpaths in town & Kuripuni - brick paths are uneven & hazardous for many people! They need to be level!!*
- Alternative Option** – Complete essential work to renew water and roading infrastructure in the town centre, and redevelop the town centre to improve the 'look and feel' of that space. Cost: \$14.12 million.

Big Decision 3: Council Funding (Consultation Document pages 29-31)

- The Council's Preferred Option** – Funding for community groups and organisations would become contestable. Applications for this funding would be considered annually.
- Alternative Option** – Maintain existing Council funding arrangements. (Note: there is currently a mix of funding that is allocated via the Long-Term Plan process and a smaller pool of annual contestable funding).

Big Decision 4: Changes to services (Consultation Document pages 32-37)

The Council is proposing five changes that will reduce costs for our community but will also have implications for delivery of services or projects. Tick which option you support for each change.

Service areas	The Council's Preferred Option	Alternative Option(s)
1: Wairarapa Economic Development Strategy	<input checked="" type="checkbox"/> Reduce funding by 20 per cent compared to 2023/24 (annual saving of \$20K)	<input type="checkbox"/> Maintain funding
2: Regional Walking and Cycling facilitation	<input type="checkbox"/> Cease funding for this (annual saving of \$35K)	<input checked="" type="checkbox"/> Maintain funding
3: Regional Positive Ageing facilitation	<input type="checkbox"/> Cease funding for this (annual saving of \$40.5K)	<input checked="" type="checkbox"/> Maintain funding
4: Welcoming Communities facilitation	<input type="checkbox"/> Seek further external funding beyond 2025 when current funding expires. If further funding cannot be secured, cease projects and activities (annual saving of \$55K from 2025/26)	<input checked="" type="checkbox"/> Provide Council funding of \$55K per year from 2025/26 when external funding expires. <i>I see this as being very important to our diverse community.</i>
5: Climate initiatives	<input checked="" type="checkbox"/> Increase Community-led Climate Initiatives Fund from \$50K to \$100K rather than funding Climate Activation facilitation beyond April 2026, when external funding ceases	<input type="checkbox"/> Increase funding for facilitation by \$92K from 2026/27, with no increase to Community-led Climate Initiatives Fund OR <input type="checkbox"/> Increase funding for facilitation by \$92K from 2026/27 and increase Community-led Climate Initiatives Fund by 50K to \$100K

Fees and charges (See proposed fees and charges on our website)

Do you support our proposed fees and charges for 2024/25?

- Yes No Don't know

.....
 What I do know is that rates increases place a lot of extra pressure on low income families and pensioners (many only have the pension to live on). Facing increases in rates are in credibly stressful to those who don't have "extra"

★ Something that has come to my attention is that the Council pays ~~for~~ for employees medical insurance. If you were a money making, privately owned corporation, that would be fine - but you are not! Why should rate payers have to pay for medical insurance for Council employees? So many rate payers are unable to afford their own medical insurance, and should not have to pay towards Council employees. We, the people, should not be asked to do that!!

★ What are you doing about future proofing our access to clean water? This is critical for all of us.

Submission on the Masterton District Council 2024-34 Long Term Plan from Wellington Fish and Game Council

Fish and Game

Fish and Game is a statutory entity established by Parliament under the Conservation Act 1987 to manage, maintain, and enhance sports fish and game birds and their habitats throughout the country. This model is unique in the world as it requires Fish and Game to manage a public resource and the habitats in which they reside for the benefit of all New Zealanders.

Sports fish and game birds are not the only species that Fish and Game protects with its dedicated environmental work. Its defence and restoration of rivers, lakes and wetlands, and the habitat they provide, ensures protection for endangered indigenous species like bittern, fernbirds, marsh and spotless crane, mudfish, eels and galaxiids to name just a few.

Wellington Fish and Game Council (WFGC) is the statutory manager of sports fish and gamebird resources in the Greater Wellington region and has statutory functions to maintain, manage, and enhance habitats for these species regionally.

WFGC have a strong focus on environmental advocacy and habitat protection. The legislative responsibility to maintain, manage and enhance the sports fish and game bird resource and their habitat encapsulates protections for all other species in this environment. Support in this multi-decade endeavour is sincerely welcomed. Ultimately, the environment supports us, and all other species. Ensuring and increasing ecosystem health will allow for everyone, everywhere, to enjoy all those species both native and introduced which we value so highly.

WFGC represents the interests of over 8000 license holders (sports fish anglers and game bird hunters) in the region. These recreational pursuits are part of New Zealand's cultural heritage and are woven into the fabric of our society and ethos. These New Zealanders regularly connect with nature through their angling and hunting pursuits and recognise the value of freshwater and wild habitats. They are heavily involved in bird surveys, predator control, wetland restoration and outdoor education and are, in many cases, better informed on biodiversity issues than most outdoor recreationists. Anglers and hunters have a genuine respect for the environment learned through experience.

Many of these license holders are also rate payers and WFGC expects that their interests and the interests of all ratepayers in the region are fairly represented in the Long-Term Plan and into the future.

WFGC welcomes the opportunity to provide feedback on the Masterton District Council's 2024-34 Long Term Plan. This submission focuses on the issues which have a potential impact on freshwater, as drinking water, storm water, and wastewater, and development all impact freshwater ecosystems.

Water main below Queen Street replacement

WFGC supports Masterton District Councils preferred option: to complete essential work to improve water and roading infrastructure in the Town Centre, which will deliver new water mains and infrastructure in the town centre.

It will be important to ensure the upgraded water infrastructure has the capacity to cope with future increased rainfall amount and frequency to prevent the work from having to be done twice.

WFGC would like to see more discussion in the Long-Term Plan consultation around improving storm water and wastewater infrastructure to address climate change driven fluctuations in frequency and amount of rainfall and storm events while reducing the impacts of contaminated water on freshwater ecosystems.

Water infrastructure

WFGC strongly recommends a focus on finding and fixing leaky pipes and water infrastructure (including infiltration into stormwater and wastewater system). Leaking drinking water pipes should be clearly prioritised in water budgeting before looking for future water storage solutions.

Lakes Henley and Lake of Remembrance

WFGC would support these lakes becoming wetlands. A deeper channel through the wetlands could perhaps provide opportunities for recreational light boating, while the wetlands themselves would provide habitat for indigenous and valued introduced species, provide vital ecosystem service benefits to the wider area, and potentially attenuate flooding risk.

We look forward to working with you in the future.

We note that councils have a mammoth task in front of them which will involve changes of direction for decision making and planning, aging infrastructure and increasing needs, and the requirement for rates to remain affordable for ratepayers. We want to work with you to create the best plans possible.

The Golden Shears is New Zealand's premier shearing and wool handling competition and has been held in Masterton for over 60 years. Each year in the first week of March, hundreds of shearers, wool handlers, and wool pressers compete at the Masterton Memorial Stadium to be crowned the Golden Shears Champion. The inaugural competition was created by a group of young Wairarapa farmers in 1961 and its popularity was so great that the local army was called upon to control the crowds.

The Golden Shears grows in size and reputation each year, securing major sponsorship deals, greater prize money for competitors and attracting a national and international audience. Over the years, its popularity as a competition and its strong ties to New Zealand's farming identity and Iwi led the event to become a household name, attracting New Zealand entertainers, celebrities, politicians, and dignitaries including Queen Elizabeth II.

Today the competition is held over three days, with 26 events ranging from novice to senior, and drawing over 4,000 attendees each year.

In 2023, New Zealand Major Events confirmed their support of Golden Shears through the Creative and Cultural Incubator Fund which focuses on the development and capability building of events with potential international significance.

The World Shearing and Woolhandling Championships (the Worlds) are held every three years and involve competitors from over 30 different countries. The Worlds 2026 will coincide with the annual Masterton Golden Shears competition and draw a crowd of over 7,000 attendees, providing significant economic and reputational benefits to the region. WellingtonNZ recognises the significance of this opportunity for Wairarapa as an events destination to grow and develop its event capacity.

In preparation for the 2026 Worlds New Zealand Major Events and WellingtonNZ will support this event, but only if the Golden Shears are able to elevate their event delivery to a level appropriate for core Major Events funding. WellingtonNZ has already started to support this event in 2024 and will also continue this support in 2025 to enable it to meet this criteria.

While the Golden Shears have been delivered successfully by a committee and group of volunteers for decades a significant drawback to advancing this event is the size of the venue. The Golden Shears International Shearing committee has made an LTP submissions requesting consideration that funding be provided to make extensions to the War Memorial Stadium.

WellingtonNZ believes that that the hosting of this event and the Worlds in 2026 will see this event grow and to manage this growth a larger venue will be required and therefore supports the LTP submissions made by the Golden Shears International Shearing Society.

Happy to discuss.

Regards,
John
