Submission Statement

The specific parts of the Proposal that this submission relates to.

I have submitted on several occasions regarding this matter and wish to reaffirm my concerns

1. At a time when costs of demolishing and building are at an all time high and there are outstanding projects facing MDC such as our water and road issues I have serious concerns that we should be spending millions of dollars on a project that is a 'nice to have and not a need to have.'
2. I have lived in a town where it was proposed that having a new town hall/civic centre would revitalize the community and bring everyone together. Needless to say the only thing everyone has in common is the fact they have crippled future generations with outstanding cost
3. When I moved to Masterton in 2019 I immediately fell in love with the old town hall, its facade and what it represented over many years. To lose this link to our history is untenable and once its gone cannot be brought back. Nice shiny toys are not always what they seem.

Summary: I oppose the demolition of the old town hall and would prefer from an aesthetic, financial and historical perspective to work with what we have and be proud of it! The current town hall is our point of difference.

Please let me know if I need to complete any paperwork in this regard - the Mayors message on FB today indicated that an email would suffice.

I do not wish to present in this regard
